

Vaccination Tracker

Getting immunised is one of the most important steps to protect yourself, your loved ones and the community. Use this card to keep track of your vaccination appointments and vaccine types.

Disease being immunised against	Vaccine (immunisation provider can advise)	Appointment date	Date given	Complete
Influenza		/ /	/ /	<input type="checkbox"/>
Pneumococcal pneumonia (if indicated)		/ /	/ /	<input type="checkbox"/>
COVID-19 (dose 1)		/ /	/ /	<input type="checkbox"/>
COVID-19 (dose 2)		/ /	/ /	<input type="checkbox"/>

Some people may experience mild side effects including slight fever or pain at the injection site. Discuss potential side effects of each vaccine with your vaccine service provider. If you have concerns about a reaction that appears to be getting worse or does not fit the common reactions for that vaccine, seek medical attention.

Note: This Vaccination Tracker does not replace your Official Vaccination Record which will be completed by your vaccine service provider.

Prevention is your best protection.

For more information about vaccines, how they work and what to discuss with your doctor, visit lungfoundation.com.au/protect or **free call 1800 654 301**.
